ORR, reporting on his tour at the Armed Forces Staff College commented, "The Agency's image with the student body was excellent but did sag a little after an Air Force speaker castigated the entire intelligence community for their lack of intelligence on the huge Soviet An-22 transport aircraft. This speaker stated that the U. S. had no knowledge about the aircraft until it arrived at the Paris Air Show, 1965. Prior to the Agency presentation by Colonel White, I was able to bring the statement to the attention of the Office of Research and Reports. As a result Colonel White was provided with the background data on the

subject and was able to present the correct version indicating our knowledge of the aircraft from drawing board to the Air Show. I was pleased to be able to bring this matter to the attention of the Agency and believe future students should be alerted to such opportunities.

Colonel White's presentation at the college was well received. Many students remarked afterwards how pleased and surprised they were at the depth and wide range of the Agency's presentation.

[REDACTED] will not need one of our quotas inasmuch as CSC is attempting to enroll him through the [REDACTED]. [REDACTED] will use one of the spaces;

[REDACTED] will use the other. The Directorate of Intelligence is most anxious for [REDACTED] to attend, and we are attempting to secure a third space from the Course Coordinator. CSC needs students for the 12 September PPB Seminar being conducted at Monterey. It seems that CSC guaranteed an enrollment of 40 in the two seminars scheduled for Monterey, and the enrollment for the 15 August running is undersubscribed. Therefore, they must go over the limit in September and to date are running way behind. [REDACTED]
